Collision coverage applies to physical damage to the insured vehicle resulting from a collision with another vehicle or object.

The collision deductible is:

INR 20,000 per covered claim

---

13. Important Exclusions

The following situations are generally excluded from standard coverage unless additional coverage or a specific policy provision applies:

1. Normal wear and tear.
2. Mechanical breakdown unrelated to a covered event.

Coverage exclusions must always be interpreted together with the complete policy terms.

14. Accident Reporting Procedure

If an accident occurs, the driver should first ensure that everyone involved is safe.

When appropriate, the driver should:

1. Move to a safe location if possible.
2. Contact emergency services when required.
3. Exchange relevant information with the other driver.
4. Record the location and approximate time of the incident.
5. Take photographs of the vehicles and surrounding area when safe.

The policyholder should not admit legal liability or agree to a settlement on behalf of the insurer without authorization.

---

15. Claim Submission

A claim may require the following information:

- Policy number
- Policyholder name
- Date of incident
- Approximate time of incident
- Location of incident
- Description of the incident
- Driver information
- Vehicle information
- Photographs
- Police or incident report when applicable

A claim reference number will be provided after the claim is registered.

---

16. Example Claim Scenario

Assume Rahul Sharma's insured vehicle is involved in an accident with another vehicle on March 15, 2026.

The insured vehicle requires repairs costing INR 180,000.

The accident is determined to be a covered collision loss.

The collision deductible is INR 20,000.

The eligible amount after application of the deductible would therefore be INR 160,000, assuming there are no other applicable limits, exclusions, or adjustments.

If the same vehicle instead suffers flood damage without a collision, the claim would generally be evaluated under comprehensive coverage rather than collision coverage.

The comprehensive deductible would be INR 10,000.

---

17. Example Theft Scenario

Suppose the insured vehicle is stolen from an authorized parking location during the policy period.

The policyholder should report the theft to the appropriate authorities and notify the insurer promptly.

The claim may require:

- Police report
- Policy number
- Vehicle registration details
- Vehicle identification information
- Keys and other requested documentation
- Details concerning the circumstances of the theft

Coverage will depend on the policy terms and investigation of the loss.

---

18. Claim Processing

After receiving a claim, the insurer may review:

- Policy status
- Coverage applicable to the incident
- Date and location of the loss
- Driver eligibility
- Cause of damage
- Applicable deductibles
- Policy limits
- Exclusions

- Supporting documentation

The insurer may inspect the vehicle or request additional evidence before determining the amount payable.

A claim being submitted does not automatically guarantee payment.

---

19. Policy Renewal

The current policy expires on December 31, 2026.

The policyholder should review renewal information before the expiration date.

Renewal terms may differ from the current policy because of changes in:

- Vehicle information
- Driver information
- Claims history
- Coverage selections
- Premium rates
- Applicable regulations

The policyholder should verify the renewal documents before continuing coverage into the next policy period.
